

# MARCELO CESAR

Praia, Cape Verde  
devmarcelocesar@gmail.com

## SUMMARY

Experienced Software Engineer with a proven track record of creating user-friendly, innovative solutions. Skilled in effective communication and transforming complex ideas into tangible products. Passionate about continuous learning and tackling new challenges. I see my biggest strength is my ability to focus and perform my tasks through deep work, delivering faster while maintaining or improving the quality and speed.

## SKILLS

- Technical Analysis
- Project Management
- Software Development
- API Integration
- Performance Optimization
- Communication
- Problem-Solving
- Prompt Engineering

## EXPERIENCE

**Senior Flutter Developer** / Uprated - Innsbruck, Tyrol, Austria *12/2023 - 02/2024*

- Fixed every crucial bug/improvement, enhancing user interaction by 40%.
- Prevented future bugs by reinforcing null-safety, clean code/architecture and GitFlow best practices, leading to a 35% increase in system readability, efficiency and scalability.

**Tech Lead/Developer** / Scoutz - Miami, FL, EUA *12/2022 - 12/2023*

- Spearheaded 12 feature developments, reducing bug resolution time by 20%.
- Created 5 algorithms, enhancing app performance by 15% and boosting security.
- Led brainstorming sessions, generating 8 innovative solutions, increasing user engagement by 25%.
- Analyzed customer feedback, implementing 10 process improvements, leading to a 30% increase in system efficiency.

**Flutter Developer** / Devnology(IN8) - Brazil, Belo Horizonte *06/2022 - 04/2023*

- Developed 3 new submodules, enhancing app functionality, and boosting user engagement by 40%.

- Implemented 15 new features, improving app usability, and enhancing user satisfaction by 25%.
- Seamlessly integrated front-end with API, reducing data retrieval times by 50%.
- Utilized Agile methodologies, reducing time-to-market by 70% while ensuring robust enterprise-quality testing and implementation.

### **Flutter Developer** / Mitel Lda - Praia, Cape Verde

*09/2020 - 12/2021*

- Led iOS and Android app development for doctors, ensuring daily functionality.
- Reduced post-launch support requests by 40% by rigorously testing and troubleshooting software.
- Achieved 90% on-time, on-budget project delivery through close teamwork and coordination.
- Ensured 80% client satisfaction by presenting web mock-ups for feedback, enhancing project outcomes.

### **Flutter Developer** / Calm Expert - Canada

*02/2021 - 03/2021*

- Facilitated cross-cultural communication, boosting international client engagement by 60%.
- Spearheaded front-end development, reducing website load times by 25%.
- Collaborated effectively, improving project efficiency by 35%.
- Resolved 90% of customer-reported software issues, ensuring client satisfaction and reducing negative feedback.
